Great session!!!!

GREAT speaker very enjoyable. Thanks for the free copy of the book. Plan on ordering some for my staff

I am reading the FLorence RX really liked this information and enjoyed the presentation.

I could have listened to Joe all day. He is a very dynamic speaker and excellent in sharing thoughts on improvement. Recharged for improvements in my hospital.

I feel so energized!

I first heard JT speak several years ago when our hospital was downsizing. He propped that when a person is laid off they end up in a better place. I didn't appreciate the wisdom back then, but have come to appreciate the insight since. he is an excellent presenter. Invigorating.

I have also read the book which was phenominal! Nice presentation!!

Incredible insight! Haven't stopped talking about this presentation and ready to order many books!

the FLorence thing is a little "kitchy" but may work if adapted to your facility

This presentation was redundant with many leadership presentations and experiences

This should be one of the main speakers - he was funny, engaging, and had great information to

share!

This was a very basic presentation- one that most any participant could give. Really didn't offer any new information or ideas. I don't like listening to 10 minutes on 'pickles'.

This was by far the best session I have attended during this conference yet!

This was my favorite

this was one of the best I have heard here at AONE!! Excellent speaker on a great subject. we need more of this.

Very nicely done--the presentation was captivating, particularly with Mr. Tye. I am not so sure I walked away with a clear idea of a "blueprint", but certainly understood the importance of a culture plan for the organization. Thank you.

Wonderful and motivating session.
